SUMMARY

Software Engineer with years of experience in back-end development

EDUCATION

M.Sc in **Electronics and Computer Engineering**	2016
Istanbul Sehir University	3.8/4.0
B.Sc in **Computer Science**	2013
University of Jordan	3.8/4.0

TECHNICAL SKILLS

Languages: C# (.NET), Python

Frameworks: .NET, AngularJS

Tools: Azure

Spoken Languages: Arabic (Native), English(Full Proficiency), French & Turkish (Working Proficiency))

EXPERIENCE

IT Officer   May 2016 - Present

SESRIC (OIC Ankara Centre), Turkey

- Collaborated with 3 developers to develop a system using (**ASP.NET/EF/MSSQL**) that:
  * Increased the productivity of events organizers by automating clients registration, follow-up, and awarding.
  * Reduced the workload of HR by self-servicing time-off requests and attendance reporting.
  * Saved 70% of the expense of off-the-shelf solution.
  * Concluded weeks earlier than scheduled by engaging stakeholders and negotiating non-value-add requirements.
- Refactored a large monolithic **PHP** system to loosely coupled polyglot (**.NET & Python**) services employing common design patterns that intercommunicate via API's.
- Developed sizable collection of PowerShell & Python scripts to automate backup, Test/Dev setup, deployment and other administrative tasks
- Initiated and successfully implemented number of impactful initiatives such as:
  * Migrating codebases to **Azure DevOps** and configuring time-saving release/development pipelines.
  * Upskilling and reskilling colleagues on agile methodologies and trending tools and practices.
  * Fostering a culture of experimentation, open communication and focus on frequent delivery of value.
- Work closely with the Director overseeing the departmental affairs and serve as deputy in his absence.
